## **AOB**

Mark suggested at next Reliability ride to do a shorter route as well as long one. Tom suggested we start advertising the date of it asap

Mark also suggested maybe doing some rides starting from and ending up at the station club, more revenue for club and more sociable, suggested once a month.

Tom to ask the club about 'adopting' a carriage as our 'club house'.

UPS and Downs ride date 19th July

Lots of discussion about putting up different rides of different lengths, got to be a commitment for a time to see how much they are taken up. Steve to put up a ride shorter on Facebook for 10th May to experiment.
